

THIS RECOGNITION IS GIVEN TO:

ATLAS COFFEE IMPORTERS

For being part of our **Sustainable Coffee Wheel 2019/2020**

Atlas Coffee Importers has been advised that, in times of a low NY coffee market, the prices frequently paid for coffees may not meet farmers' costs of sustainable production. To help protect farmers' interests, for certain coffees Atlas has committed to pay prices that exceed farmers' average cost of production.

The purpose of this certificate is to verify that Atlas Coffee Importers has paid a price that exceeds the average cost of production, for the coffee harvest season and products specified below:
